Summary of testing:

Testing location:

Global United Technology Services Co., Ltd.

No.123-128, Tower A, Jinyuan Business Building, No. 2, Laodong Industrial Zone, Xixiang Road, Baoan District, Shenzhen, Guangdong, China

Tests performed (name of test and test clause):

The sample(s) tested complies with the requirements of IEC/EN 60950-1

When determining the test conclusion, the Measurement Uncertainty of test has been considered.

Heating test (4.5):

Tma = 25 °C (declared by manufacturer)

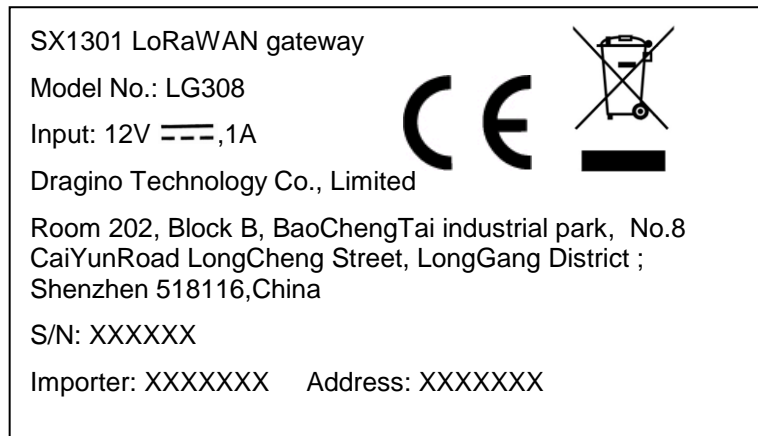

Tamb = 25.2 °C – 25.6 °C

K-type thermocouple used for temperature measurement.

Summary of compliance with National Differences

Compliance with the National requirements of CENELEC common modification.

Copy of marking plate

Remark:

1. The above label is draft of the artwork for marking plate pending approval by National Certification Bodies and they shall not be affixed to products prior to such approvals.
2. The marking plate of the other models are of the same pattern.

Unless otherwise stated: (a) the results shown in this document refer only to the sample(s) tested and (b) such sample(s) are retained for 1 month. This document cannot be reproduced except in full, without prior approval of the company.

General product information:

SX1301 LoRaWAN gateway , powered by external power supply with LPS output. For indoor use only.

Model difference:--

Instructions and equipment marking related to safety is applied in the language that is acceptable in the country in which the equipment is to be sold.
